

CCAC JANUARY 9, 2018 MEETING NOTICE

Toni Preckwinkle
Board President
Cook County Government
City of Chicago

Making Cook County Work

Investing in communities while strategically planning regional economic growth can help optimize Cook County's economic potential. Cook County is stronger when no community is left behind. And it's stronger when we consider the County as part of a larger region with size and intermodal infrastructure that can be leveraged to our competitive advantage.

President Preckwinkle addressed CCAC in 2015. She is returning to kick off the 2018 speaker series with insight on how to make Cook County flourish.
